

SNX2 – Top 10 Enrichments – KEGG

Description

Mitophagy – animal

Porphyrin and chlorophyll metabolism

Pentose and glucuronate interconversions

Salmonella infection

Ascorbate and aldarate metabolism

Lysosome

Autophagy – other

Autophagy – animal

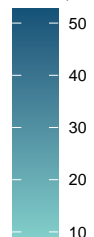

SNARE interactions in vesicular transport

Endocytosis

1e-47 1e-36 1e-25 1e-14

P-value

FDR (-log10)

Gene count
