

# DUOX1 – Top 10 Enrichments – InterPro

Description

Protein kinase, ATP binding site

Riboflavin synthase-like beta-barrel

Ferredoxin-NADP reductase (FNR),  
nucleotide-binding domain

FAD-binding domain, ferredoxin  
reductase-type

Protein kinase domain

Protein kinase-like domain superfamily

Thioredoxin-like superfamily

EF-hand domain pair

EF-Hand 1, calcium-binding site

EF-hand domain

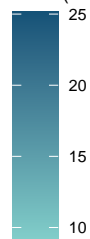

1e-25

1e-20

1e-15

P-value

FDR (-log10)

Gene count
