

# SNX2 – Top 10 Enrichments – HPO

Description

Abnormal nervous system physiology

Abnormal nervous system morphology

Upper motor neuron dysfunction

Abnormal central motor function

Spasticity

Atrophy/Degeneration affecting the central nervous system

Abnormality of the nervous system

Hypertonia

Low density lipoprotein cholesterol measurement

Lipoprotein measurement

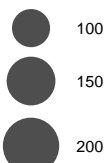

1e-11

1e-10

1e-09

P-value

Gene count

FDR (-log10)
