

LTBP4 – Top 10 Enrichments – InterPro

Description

Thrombospondin type-1 (TSP1) repeat
superfamily

Protein kinase-like domain superfamily

Protein kinase domain

Laminin G domain

EGF-type aspartate/asparagine
hydroxylation site

EGF-like calcium-binding, conserved site

EGF-like calcium-binding domain

Growth factor receptor cysteine-rich
domain superfamily

Collagen triple helix repeat

EGF-like domain

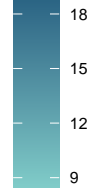

1e-22

1e-18

1e-14

P-value

FDR (-log10)

Gene count
