

# LTBP4 – Top 10 Enrichments – Pfam

Description

Reprolysin family propeptide

Lysyl oxidase

EMI domain

TB domain

Calponin family repeat

PLAC (protease and lacunin) domain

Activin types I and II receptor domain

TGF-beta propeptide

Major intrinsic protein

Collagen triple helix repeat (20 copies)

1e-19

1e-14

1e-09

1e-04
