

SLC2A14 – Top 10 Enrichments – Pfam

Description

ZIP Zinc transporter

Sodium:dicarboxylate symporter family

Sulfate permease family

STAS domain

Sugar (and other) transporter

Transmembrane amino acid transporter protein

Sodium:neurotransmitter symporter family

Amino acid permease

Sodium:solute symporter family

Major Facilitator Superfamily

1e-39

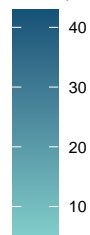

1e-29

1e-19

1e-09

P-value

FDR (-log10)

Gene count
