Description

(2023) Role of Vitamin D in Head and Neck Cancer–Immune Function, Anti–Tumour Effect, and Its Impact on Patient Prognosis.

(2020) Understanding the complexities of SARS–CoV2 infection and its immunology: A road to immune–based therapeutics.

(2022) Major pathways involved in macrophage polarization in cancer.

(2015) Regulation of Bim in Health and Disease.

(2023) Innate and Adaptive Immunity during SARS–CoV–2 Infection: Biomolecular Cellular Markers and Mechanisms.

(2021) Immune Response in Severe and Non–Severe Coronavirus Disease 2019 (COVID–19) Infection: A Mechanistic Landscape.

(2023) Macrophages in immunoregulation and therapeutics.

(2023) The Role of Different Immunocompetent Cell Populations in the Pathogenesis of Head and Neck Cancer–Regulatory Mechanisms of Pro– and Anti–Cancer Activity and Their Impact on Immunotherapy.

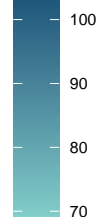

(2023) T cells in health and disease.

(2018) 33rd Annual Meeting & Pre–Conference Programs of the Society for Immunotherapy of Cancer (SITC 2018) : Washington, D.C., USA. 7–11 November 2018.
